 uni.wroc.pl

ABSTRACT. A new name *Stolas radiata* is proposed for *Stolas flavoradiata* BOROWIEC &  
 STACH, 2012 not *Stolas placida* var. *flavoradiata* HINCKS, 1956.

Key words: entomology, nomenclature, new name, Coleoptera, Chrysomelidae, Cassidinae,  
 Mesomphaliini.

BOROWIEC and STACH (2012) described a new species *Stolas flavoradiata* from  
 Peru, Iquitos. We overlooked that HINCKS in 1956 described an infraspecific name  
*Stolas (Stolas) placida* var. *flavoradiata* for another taxon from Peru, Canchomajo. The  
 HINCKS' name is available and has priority thus we have proposed a new name *Stolas  
 radiata* for *Stolas flavoradiata* BOROWIEC & STACH, 2012 not *Stolas (Stolas) placida*  
 var. *flavoradiata* HINCKS, 1956.
